SAKE

GLASS AND CARAFE

SAKE

Sake presents unique characteristics at different temperatures. Each sake has its own optimum temperature, and this will vary, with the quality of the sake, the season, as well as the consumer's personal preference. Chilling sake which is refreshing and aromatic will maintain its delicate flavours and aromas. Warming a robust and rich sake will increase the softness and umami fragrance.

100ml/ 300ml/ 720ml

Urakasumi Honjikomi Honjozo

8/ 24/ 48

Miyagi prefecture. Classic and elegant with a touch of fruitiness. Smooth and creamy texture would go all the way through and complete with clean finish.

CHAMPAGNE

Usually produced from a blend of Pinot Noir, Pinot Meunier and Chardonnay grapes. The exceptions are 'Blanc de Noirs' which is made only from red grapes and 'Blanc de Blancs' which is only produced from white grapes.

'NV' stands for a multi vintage blend. Champagne producers blend vintages and wines from different villages of the region to produce every year, a Champagne that is consistent in flavour profile and outstanding quality.
